WORK EXPERIENCE

Freelancer — Frontend developer   Remotely

2023 - Present

- **Build** responsive and fast websites and apps using Next.js, Prisma, and TailwindCSS. Handle everything from planning to launch and ongoing support.
- **Work** closely with clients to understand their needs and offer solutions that fit their goals, helping them choose the right tools and strategies.
- **Improve** projects by applying my front-end and back-end skills to create smooth user experiences and optimize performance.

Tech Stack: Next.js, Typescript, Prisma, TailwindCSS, React-hook-form, Zod, Next-auth

Prasoft — Kayseri, Turkey — Frontend developer

Jul 2023 - Jan 2024   (Integration and e-commerce)

- **Enhanced** the main website and Prapazar by collaborating with UI/UX designers to implement user-friendly features and optimize the overall user experience.
- **Participated** in all development stages, including feature implementation, testing, and post-deployment monitoring, ensuring smooth and efficient deployment.
- **Collaborated** with cross-functional teams, including UI/UX designers and back-end developers, to deliver seamless user experiences and improve features that addressed business needs for diverse sectors such as hospitality and retail.
- **Improved** system performance by designing and implementing optimized API endpoints, which streamlined processes for suppliers, and significantly enhanced user interactions on the BigCommerce platform, contributing to an overall performance boost of approximately 20%.

Tech Stack: React.js, Javascript, Typescript, Bootstrap, CSS3

Naviro — Dublin, Turkey — Frontend developer   Remotely

July 2023 - Oct 2023

- **Developed** the entire front-end of an MVP project using Next.js, TypeScript, Tailwind CSS, Redux, and Auth0 based on Figma designs.
- **Built** responsive UI components and implemented core functionality to match design specifications, enhancing the overall user experience.
- **Collaborated** closely with back-end developers to integrate APIs, ensuring seamless communication between front-end and back-end systems.

Tech Stack: Next.js, Typescript, TailwindCSS, React-hook-form, Zod, Auth0
